## *Article Evaluation Form*

Dear Reviewer...

Please notice that reviewing needs to be conducted confidentially. The article you have been asked to review should not be disclosed to a third party. If you wish to elicit an opinion from colleagues or students regarding the article you should let the editor know beforehand. You should not attempt to contact the author(s). Be aware when you submit your review that any recommendations you make will contribute to the final decision made by the editor in chief. In this form, you are asked to evaluate the article at hand on a number of criteria.

<b>Manuscript Research Evaluation</b>						
<b>Evaluation Elements</b>		<b>Weak</b>	<b>Accepted</b>	<b>Good</b>	<b>V. good</b>	<b>Excellent</b>
1.	How clear and compatible is the research title with the content?					
2.	How clear are the goals of the research and the research commitment to them?					
3.	Is the abstract written in a proper way that represents the contents of the research?					
4.	How convenient is the method of the research that was used?					
5.	How successful is the research in presenting its conclusion in a clear way?					
6.	How accurate are the analyses of the results?					
7.	How compatible is the discussion to the conclusions of the research?					
8.	How compatible are the figures and the schedules to the research (if any)?					
9.	How compatible and updated are the references?					
10.	The accuracy and honesty in the citation?					
11.	How accurate and correct is the language of the research?					
12.	Will the research provide new knowledge to the research within the same field?
